

Hello,

I am a Junior at Mountain View High School and I have extensive experience in software programming and app development. I have developed multiple applications and I teach programming at many venues (Oracle JavaOne4Kids, SV Code Camp, MVHS, CoderDojo, etc.). I am also a tech enthusiast and passionate about creating new products.

I am looking for a challenging summer internship where I can combine my passion for technology and my programming skills to help create new innovative products. I would love to be part of your company to learn and be mentored from experienced professionals.

Please find my attached resume for a summer internship. I would appreciate if you could please let me know when is a good day/time to connect so that I could answer any questions that you may have.

Looking forward to hearing back from you soon.

Sincerely,

Paran Sonthalia
